

# MANTIS VISION

## 3D that works for you

**Meet Mantis Vision at CES 2019 and experience amazing social 3D Mixed Reality Volumetric content creation & sharing between multiple devices and applications streaming in real time.**

**Mantis Vision CEO presents “The Depth Revolution in Mobile”**

PARK CITY, UT, Nov 15,2018

Petach Tikva < Israel, Nov 15, 2018 -- Mantis Vision is a leading provider of 3D depth capture technologies and 3D content sharing for a wide array of applications and devices. Mantis Vision technology enables content providers enrich their world with mixed reality (MR) applications opening new business opportunities and experiences.

“Mantis Vision is at the forefront the mobile depth revolution,” said **Gur Arie Bittan, CEO** and founder “CES 2019 is our coming out party where we will deliver must-have **MR Volumetric social applications** on your mobiles as well as new strategic partnerships and how 5G with benefit from the depth revolution.”

Mantis Vision’s all-in-one mixed reality content capture system for smartphone/tablets/ar-vr-mr creates real-time interactive 3D volumetric experience. You can have a three-dimensional chat with a date, implant yourself in an augmented reality game, capture your friend and puppeteer him as an Avatar, or record a dynamic hologram and leave it AR message in space

Create and communicate in brand new ways that will only be limited by your imagination.

Mantis Vision has developed an accurate Structured Light 3D capture method and projection as well as the ability to sync multiple depth cameras to create premium live depth acquisition and volumetric streaming. The company also has the capability to stream real time 3D data to AR, VR and MR applications in varied scales from mobile phones, through professional scanners, and up to live volumetric studios.

During CES 2019, Mantis Vision will announce a strategic partnership in the USA entertainment industry and create the buzz with its mixed reality MR Mobile volumetric social apps experience and real-time multicast of holograms, a unique must-see experience at CES!

In 2018, Mantis Vision succeeded Round D investment of \$54m supported by Samsung Catalyst Fund and Luenmei Quantum and announced a Joint Venture in China and in the USA. Mantis Vision succeeded a design win with its embedded 4/4/4mm Depth camera in Xioami Mi8 Explorer and announced joining the China Mobile 5G Alliance amongst other significant events.

**We would be delighted if you would join us at CES 2019, Jan 8-11, 2019, in Las Vegas.**
